

In The Mindway

It's the pathway the mind travels that is so sacred.
We are all sharing together, so free without hatred.
There are no limits to stop us, so no reason to quit.
The universe of happiness & it's discovery is out there;

Let's get on it it's our trip.

But that poem can't exist in this country.

That is because haters continue to be allowed to run-a-muck and win -- because they are a part of the leaders of the community that has taken over with corrupt morality to the full and complete insanity that I have documented of hate being put into my life that the fucked-up human community will not address and fix.

Time and time and time again, a hate memplex exists to remove my empowerment of voice and it impacts upon policy and just mere change - I am not being over drama queen embellishing the truth of the conditions on the street level of what it is to of experiences for persons living with HIV -- way outside of the view of the massive mischievous marvel of molding muck creator privilege as they so deemed to have created a nightmare in the policy of a social engineering failure!

The care to know what destruction they are responsible for? Nah, they don't care what the harm is being done onto our communities right this minute to minute I type this out.

I am to the degree of serious statements making of intent to denounce my United States citizenry to SOME OTHER COUNTRY that DOES NOT ALLOW the HATERS TO WIN. Where that is - I am not sure -- but for sure the UNITED STATES OF AMERICA is the pit of all pits of haters taking advantage abusive toward me -- unstoppable is this effect -- it falls under the category that I am a continued person identified as being a TARGETED INDIVIDUAL [TI] of #GangStalking.

This is not a delusion but as a conclusion that all of you mother fucking asshole idiots at the leadership of the federally funded social engineering experiment that falls under "members of the community monitoring surveillance programs " has taken hold of your hateful hearts and you all defend such actions as moral and no one can step forward and challenge it to a termination status :

#ConspiracyExposedTerminaesASAP

because something wicked this way comes -- you are a disgrace to be called an American among our society. You are a disgrace to be the ones whom I have documented to the internet domain space of fuckeduphuman.net -- and don't give a care that this space is there -- index on search engine like google -- the madness of you all taking yourself and continuing to defend the hate in your heart to the destruction of lives because of a meme #KillTheGays that no way would the leaders of the HIV community harm the clients they service. But I beg to differ that Glassdoor employee level reviews reflect the conditions one more on the street away from the high all-mighty adomment pillars of superiority holding the Ryan White Care Act indemnified against wrongdoing.

Now if I can indeed describe the details to the level that my doctor of Psychiatry said that he would indeed sign me a letter of advocacy to engage and direct a story to be considered as true upon the system that is fundamentally flawed, that such a signed letter of advocacy would relate that I am not crazy, I am not irrational, and I am not delusional when telling a story that unfolds onto my life, that haters have been allowed to run-a-muck crazy, their insanity rules over my rational life plans.

For they are the ones who are breaking the law, they are the ones harming our community.

Persons with HIV have died for sure which their life has been systemically outcast away from the support --they have been murdered by this observance of policy --

GIVE ME MY LIFE BACK FREE OF THE GANG STALKING --- GIVE US OUR LIFE BACK FREE OF THE HATERS --

YOU ALLOW THE CONDITIONS THAT ARE IN PLACE TO KILL PEOPLE BY THE INTERNAL MECHANICS OF HATE THAT IS AT THE HANDS AND ACTIONS OF THE LEADERSHIPS AND DIRECTORS OF THE RYAN WHITE CARE ACT FUNDED SOCIAL SERVICE AGENCIES!

I CAN PROVE IT -- BUT YOU JUST STAY THERE JUDGING ME UNWORTHY TO PAY ATTENTION TO THE STORY THAT IS OF ALL MIGHTY LABELED ---

@FUCKEDUPHUMAN.NET : #FUCKEDUPHUMANGEYSERASSHOLES

When will you proclaim your independence of this --- and do something right for a fucking change?

This condition of the law enforcement knowing the truth; holding bias instead of disinterestedness upon these circumstances -- and to nullify and take the validity of a story and swat it down onto the ground into the gutter of non-intelligence --- you all are guilty of massive moral offenses that you will be seeing fire, flames, brimstone, and suffering in the pits of hell for what you condone and defend here this day.

How can you all sleep at night?

*pathophysiology
research
integrating
genomics,
behavior, and
neurobiology.*

Biomarkers from neuroimaging and genetic analyses will hopefully serve to stratify patients based on their unique biosignatures. Not only would this combat the heterogeneity problem, but doing so would facilitate identification of optimal treatments matched to patients' conditions. This sparks hope for personalized or "precision medicine," in which specific pathophysiologies may be identified and corrected. This is not the immediate aim of RDoC though. As psychiatry lags behind the rest of medicine in achieving precision medicine, most experts expect at least a generation before such a breakthrough in mental disorder research is plausible. After all, there are **high hurdles** to overcome, given the complexity of the human brain and its inaccessibility to direct study.

It is a revolutionary and still **controversial idea** that mental diseases are merely "extremes on a spectrum of normal functioning." Extensive research will have to be conducted to establish cut-off points in dysfunction that require different clinical action. If the DSM is to work in tandem with RDoC, perhaps the latter will provide a basis to subtype the umbrella-term diagnoses of the former.

Despite the optimism, some objections to the RDoC initiative do warrant consideration. Several researchers **warn against** oversimplifying complex psychiatric illnesses by naturalizing their origins. Disorders may also share seemingly similar abnormalities and symptoms, but that may not entail that their causations and required interventions are the same.

The standing position relayed this article:

"NORMAL FUNCTIONING"

It is a revolutionary and still **controversial idea** that mental diseases are merely "extremes on a spectrum of normal functioning." Extensive research will have to be conducted to establish cut-off points in dysfunction that require different clinical actions. If the DSM is to work in tandem with RDoC, perhaps the latter will provide a basis to subtype the umbrella-term diagnoses of the former.

That means you all can't accept normal --- you dismiss normal -- you chitise

normal -- you are abnormal --- by hate instilled in your heart

TAKE THAT HATE --- GET THE FUCK OUT OF THIS COUNTRY --- SO

SI HAVE to LIVE IN NORMALCY WITHOUT ENCOUNTERING YOU

AALL HATERS RUN-A-MUCK -- DEFENDERS OF THE ABNORMAL.

ALLOWANCE TO DESTROY ME ALONG WITH OTHERS OF THEIR

LIVES BECAUSE YOU CANNOT HANDLE NORMAL.

THIS IS FACT!

I bring a storyline of a very harming illegal hate systemic paradigm being dismissed by the community including police resources; giving no credibility in this story that grants a citizen right be freed from the ability of haters to continue their attack on me!
